- (2) Report by 9th Weather Squadron, Det 24, F. E. Warren AFB of weather conditions at Rawlins, Wyoming at 0210/18 April 1967:

6784 (surface)	150 degrees cent.	08 kts
10,000	210	20
16,000	230	50
20,000	230	52
30,000	230	86
50,000	220	36
80,000	100	07

- (3) Clear
- (4) 40 miles
- (5) Few cumulus North
- (6) None
- (7) Standard lapse rate, no significant inversions existed.

h. None

i. N/A

j. None

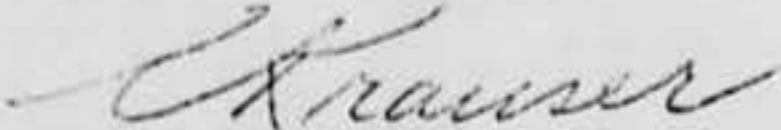

k. Assistant Base Operations Officer, Casimer Krauser, GS-11, Base Operations, 809th Cmbt Spt. Gp, F. E. Warren AFB, Wyoming, 307; 7752222 (office), 634-3067(home).

The information on this UFO was relayed by CB Radio from Mr. [REDACTED] (See par f) to Mr. [REDACTED], age 38, a chemist for Sinclair Refining Co at Rawlins, Wyoming. Mr. [REDACTED] gave me the details by long distance telephone. Mr. [REDACTED] was communicating with another friend in Rawlins by CB Radio at the time the UFO was sighted. He stated that, at the time of the sighting, his radio was, "knocked clean off" and that the interference (possibly caused by the UFO) "killed my CB".

Mr. [REDACTED] was reluctant to give any information since he wanted no publicity.

Upon termination of the phone conversation I called the Cheyenne Airport FAA Tower and asked for any information from them or Denver, Colorado Center which might have been pertinent. There was none. A further check with the FAA on 18 April 1967 revealed nothing.

I believe Mr. Guffy saw a meteor (See a. (9)).

  
C. KRAUSER, GS-11  
Supervisory Air Traffic Control  
Specialist (General)
